

Dear Friends,

Thank you for visiting our website. As you browse through its pages, you will learn a great deal, not just about CAST, but also about the art and science of low voltage landscape lighting.

CAST stands out among other manufacturers for a host of reasons:

- **Quality:** The great majority of outdoor lighting products break, chip, peel and eventually fail entirely. CAST products have rock-solid construction and the highest quality electrical components. Our products are practically indestructible and are guaranteed to perform perfectly for the life of your home.
- **Solid Sand-Cast Bronze:** Better than aluminum, copper and brass – CAST lighting fixtures are hand-crafted in our own foundry by skilled workers. Bronze never corrodes and it ages naturally to a beautiful patina.
- **Training and Education:** Like all artistic trades, landscape lighting design is best undertaken by well-trained and experienced professionals. CAST has led the industry in this training and offers both beginning and advanced education with courses, seminars and online education.
- **Customer Service:** I have always recognized the important role that a manufacturer plays in serving the needs of distributors, installers, specifiers and homeowners. Answering questions, providing technical support and streamlining the purchasing process have always been our top priorities.
- **Passion:** Perhaps the biggest factor that sets us apart from the others is our passion for quality landscape lighting. It was passion that inspired me to launch CAST; and our company is staffed with extremely skilled professionals all sharing this same passion.

Landscape lighting is far more than just putting in a few lights; it is a fine art that transforms your nighttime experience. A well designed and installed CAST landscape lighting system is an investment that rewards you every night for years to come.

Once again, thank you for visiting our website. I encourage you to explore its many valuable resources. We welcome your comments and questions and look forward to the possibility that you will join the growing family of professionals and homeowners who share our passion for quality landscape lighting.

Sincerely yours,

David Beausoleil  
Founder and President  
CAST Lighting LLC.
